

# Downloading the Microsoft Authenticator App

The Microsoft Authenticator App is an application which ensures the security of your online account if your username and password are compromised.

The authenticator app sends a notification to your phone when you try to log in, which prompts you to confirm that it is you, looking to log in.

How to download the App:

You can download the app on any mobile devices via your phone app store.

- For Apple iPhone, this is via the App Store
- For Android, this is via Google Play

Google Play

App Store

Search for the app in the respective store, and select "Get" / "Install"
